

App. No. 10/826,990
Attorney Docket 3053.2.1 NP

Amendments to the Claims

1. (Currently Amended) A liner for lining a window well, consisting essentially of:

a flexible first side with a three-dimensional pattern protruding therefrom;

a flexible second side that is substantially flat and configured to contact a window well; and

wherein the liner is a flat and single contiguous sheet that is elastically flexible and configured to attach to a window well.
2. (Previously Presented) The liner according to claim 1, wherein the first side comprises a pattern of artificial rocks designed to give an appearance of a rock wall.
3. (Previously Presented) The liner according to claim 1, wherein the liner is comprised of polyurethane.
4. (Canceled)
5. (Previously Presented) The liner according to claim 1, wherein the liner is secured to a window well with screws.
6. (Previously Presented) The liner according to claim 5, wherein the screws pass through the liner and into a proud section of a window well.
7. (Currently Amended) A window well, comprising:

a single sheet window well liner secured to an inside surface of a window well shield that is coupled directly to a home, and having a three-dimensional pattern.
8. (Original)The window well according to claim 7, wherein the window well liner is comprised of polyurethane.

App. No. 10/826,990
Attorney Docket 3053.2.1 NP

9. (Original) The window well according to claim 7, wherein the pattern is a series of round and elliptically shaped rocks.
10. (Original) The window well according to claim 7, wherein the pattern is a series of generally rectangular shaped rocks.
11. (Original) The window well according to claim 7, wherein the window well liner is secured to the window well with screws, which pass through the liner and into a proud section of the window well.

12 – 20 (Canceled)

21. (Currently Amended) A window well liner, consisting essentially of comprising:
a single flexible polyurethane sheet having a first side and a second side, wherein ornamental protrusions extend from the first side;
alkyd paint disposed over the first side; and
wherein the second side couples directly to a window well.

22. (Currently Amended) The window well liner of claim 21, wherein the second side is substantially free of protrusions ~~flexible polyurethane sheet includes HYS DX HT-2090F-A and HYS DX HT-2090F-B.~~

23. (Previously Presented) The window well liner of claim 22, further comprising a polyurethane ultraviolet layer coupled to the first side, over the alkyd paint.
24. (Previously Presented) The window well liner of claim 23, further comprising a plurality of screws disposable through the sheet.
